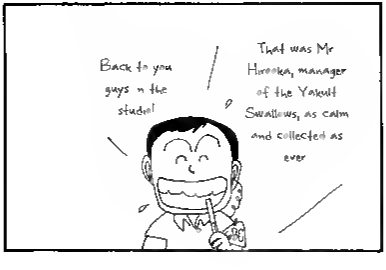
Mr Hiraoka congrats on today's victory. This brings the team closer to its first ever league title!
I'm just glad we didn't lose

How did today's win feel? You're first on the table now!
I just asked the players not to make any errors in all our games
Our current position is a natural result of that

Besides being first right now is meaningless
The only thing that matters is our position at the end of the season
I see



That was Mr Hiraoka, manager of the Yakult Swallows, as calm and collected as ever
Back to you guys in the studio!
